Rev. Carmen Colona coordinates Hispanic ministries for the Eastern Shore District. She invites you to learn more about the Hispanic culture and people on the Eastern Shore.

Chad Jones: Classical Guitar

Music of the Renaissance, Baroque, Classical, Romantic, 20th century, and contemporary eras as well as Spanish, Latin American, and popular music.

Wednesday, October 19

Eastern Shore Maritime History

Grayson Chesser, decoy carver from Jenkins Bridge, will tell stories of his hunts in the Wallops Island area.

Kefford Linton builds model boats in his studio at Saxis and will discuss the types of boats used in local waters.

Owen Hooks, author of The Wild Pony Auction at Chincoteague, will share the history of local barrier island wild ponies.

Tom Patton, author of Listen to the Voices, Follow the Trails, will chronicle the natural history and culture of the Maryland seashore.

Charles Petrocci, researcher and writer specializing in maritime history and tourism, has been educating the public about Eastern Shore cultural heritage for almost 20 years.

Thursday, October 20

Genealogy and History of the Eastern Shore (GHOTES)

Tammy Elvenia will guide the curious, regardless of ethnic background, through the process of discovering all the branches on the family tree. Learn about GHOTES and other resources like family history centers and Internet genealogy.

Thursday, October 20 and

Friday, October 21

Wallops Flight Facility senior manager, John Campbell, (right), recently presented this quarter's Aviation Safety Council Superstar Award to Jeff Sigrist, senior aircraft mechanic and AirTec, Inc site manager. Sigrist was recognized for his hard work and 25 years of dedicated service to the Wallops aviation community.

The American Red Cross Blood Drive

**Tuesday,
October 18**

**Building F-3
(Rocket Club)
9 a.m. to 2 p.m.**

To make an appointment call the Health Unit at x1266

FIRE PREVENTION TIP OF THE WEEK:

Never leave a burning candle unattended. Extinguish all candles when you leave the room or go to bed.

Almost half of all home fires started by candles begin in the bedroom.

The National Fire Protection Association discourages the use of candles in the bedroom and other areas where people may fall asleep.

**2005 Combined Federal Campaign
"Where the Heart is....in Every One of Us"**

The Combined Federal Campaign, (CFC), has begun and will continue through the end of October.

Last year, through the generosity of Federal employees on the Eastern Shore, the local CFC raised \$48,120 for service agencies in our local area, our nation and around the world.

Federal employees have the right to contribute or not to contribute to the CFC. The choice is yours. Any contributions should be freely given.

All federal employees should have received a booklet listing charities in the Eastern Shore area.

You can accomplish much with a CFC gift. Donations and donor cards should be returned to your CFC coordinator by October 31. For further information contact Rob Hurley at x1881.

Inside Wallops is an official publication of Goddard Space Flight Center and is published by the Wallops Office of Public Affairs, Extension 1584, in the interest of Wallops employees. Recent and past issues of *Inside Wallops* also may be found on the NASA Wallops Flight Facility homepage: www.wff.nasa.gov

Enhance Reutilization on ADP Equipment

by Terry Ewell

When you excess a computer always include the keyboard, mouse, external speakers and associated cables.

Place these items on top of the computer for pick up.

No paperwork is required for the keyboard, mouse, speakers or cables.

Also, place all associated cables for excess monitors and printers on top of those items.

For laptop computers, include the power supply. If you do not turn in the power

supply, the computer hard drive will have to be destroyed, because the computer cannot be powered-up to clean the hard drive.

Include all printer ribbons, cartridges, etc., with your excess printer, if no one in your organization can use these items.

By taking the above steps, you enhance the reutilization potential of the computer, monitor, or printer.

In addition, the whole package ensures that the item will be attractive to schools receiving donations through Computers for Learning.
